

# Bogie Enterprises

**NOTICE:** Bogie-NeuralNetwork-1 Set Files.

## Set File Installation Methods

### Method 1:

1) Use Windows Browser and install files here: C:\\Programs Files\\MetaTrader 4\\experts\\presets

*MetaTrader 4 is your Broker's Metatrader 4 folder. Example: For IBFX, C:\\Program Files\\InterbankFX Trader 4*

2) Then Right-click on chart, then click Expert Advisor, then click Properties, then click inputs tab.

3) Then click "Load" button and select appropriate set file in the presets folder and then click OK.

4) The click Properties OK.

### Method 2:

1) Open a Set File with Text Editor (Notepad)

2) Right-click on chart for same pair as Set File, then click Expert Advisor, then click Properties, then click inputs tab.

3) Manually change inputs value of EA to values in Set File.

4) Then click Properties OK.
