Entry (LIMIT PRICE): 1.2735

Stop Loss (Lower TTO):

Target (Upper TTO):

BUY STOP LIMIT

NOTES: Initially places a stop limit order (either a buy or sell), which works like a Stop Market order with one major exception. Once the order is activated (by the currency trading at or through the stop price), it does not become a market order. Instead, it becomes a limit order with a specified limit price. Your order fill price will be either at your specified limit price or better.

Trader would like to go long above the current market price with a trailing stop.

Current Market: 1.2700

Entry: 1.2730

Stop: 15 PIP Trailing Stop

Target: Will go until trailing stop is hit or cancelled by trader.

STOP + TRAILING STOP

NOTES: Ride a currency's price trend, profit from its movement, and limit your downside risk without constantly monitoring prices. Trailing stops move your stop price with the price of the currency and are server-sided, protecting you in the event you lose Internet connection.
