IBFX Forex Trading Tools

IBFX offers a library of FREE trading tools to assist you with your trading and analysis. Whether you have a demo account or trade with real money, each of our customizable tools are designed to help you with your technical analysis. Remember, our tools are not designed to be used as standalone products, they are designed to be used as part of a comprehensive trading plan. [Register for your free demo account](#) or [live account](#) now to take advantage of our free tools.

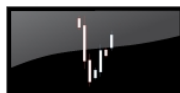

[IBFX Basics](#)

IBFX Basics is a compilation of indicators and expert advisors. Each expert advisor is based upon widely used technical indicators. The Basics download allows for the quick and easy installation of all of the indicators and expert advisors.

(requires platform)

[Download Instructions](#)

[IBFX Instrument Monitor](#)

IBFX Instrument Monitor allows traders to look at the broader picture of each currency's relative strength across the board with nothing more than a quick glance to the top of your chart.

[Download Tool](#)
(requires platform)

[Download Instructions](#)

[IBFX MACD Traditional](#)

IBFX MACD Traditional provides a version of the MACD that is widely considered to be the standard or "traditional" version of the indicator.

(requires platform)

[Download Instructions](#)

[IBFX Partial Close Expert Advisor](#)

IBFX Partial Close Expert Advisor helps you manage your Take Profit levels by allowing you to close portions of your trade at different take profit levels.

[Download Tool](#)
(requires platform)

[Download Instructions](#)

[IBFX PRS](#)

IBFX PRS scans multiple currencies and time frames looking for price consolidation patterns. When a forming pattern is identified, traders using the PRS will be alerted.

[Download Tool](#)
(requires platform)

[Download Instructions](#)

[IBFX Quick Scripts](#)

IBFX-Quick Scripts tool will install 4 scripts in your Interbank FX Trader 4 installation: IBFX-Quick Buy, IBFX-Quick Sell, IBFX-Quick Close Reverse, and IBFX-Quick CloseAll.

[Download Tool](#)
(requires platform)

[Download Instructions](#)

[IBFX Rocks](#)

IBFX Rocks allows traders working with Freedom Rocks to manage their portfolio strategies directly from their own charts.

[Download Tool](#)
(requires platform)

[Download Instructions](#)

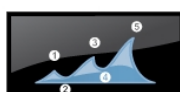

[IBFX Trade Analyzer](#)

IBFX Trade Analyzer examines your historical trades over a given date range and creates a comprehensive statistical report. It is the perfect tool for new traders who are developing a trading plan, or current traders who are reviewing current performance.
