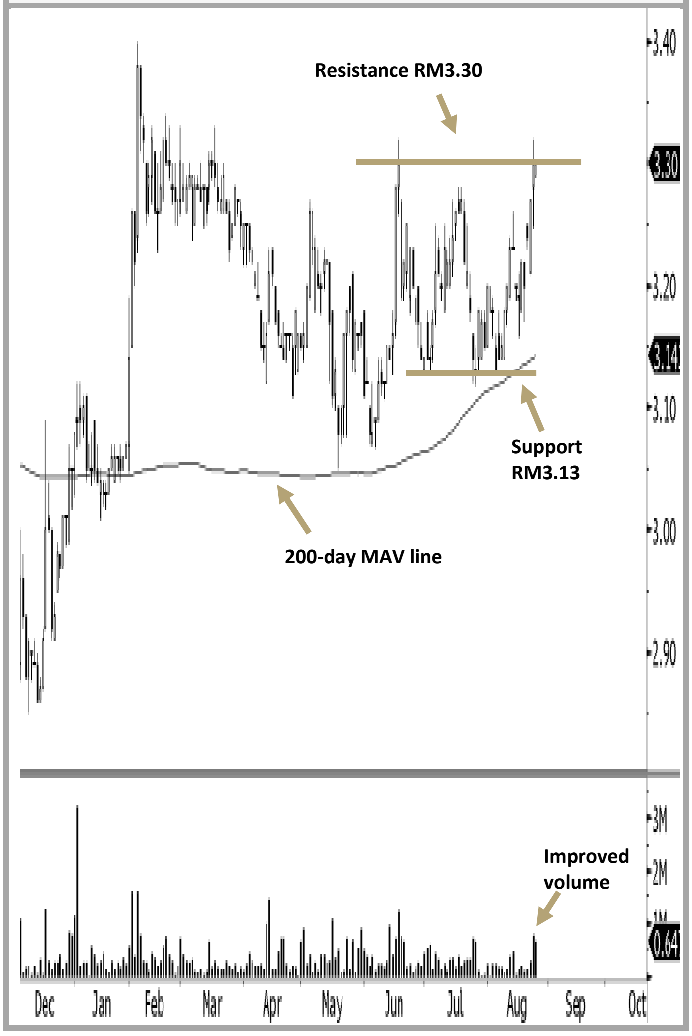
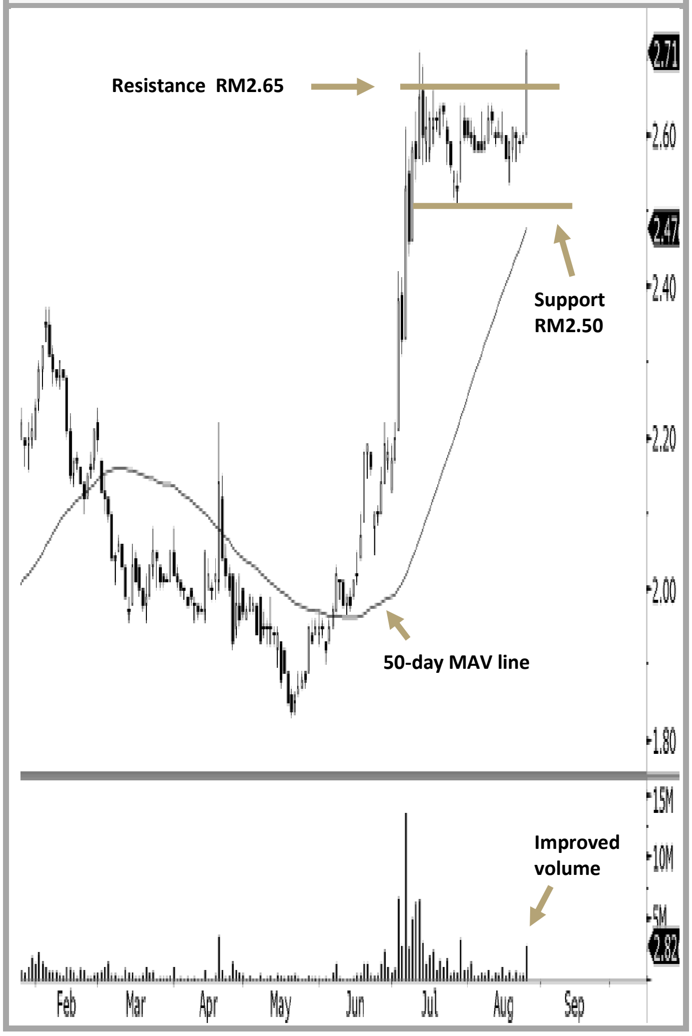
Daily Trading Stocks

QL Resources Bhd



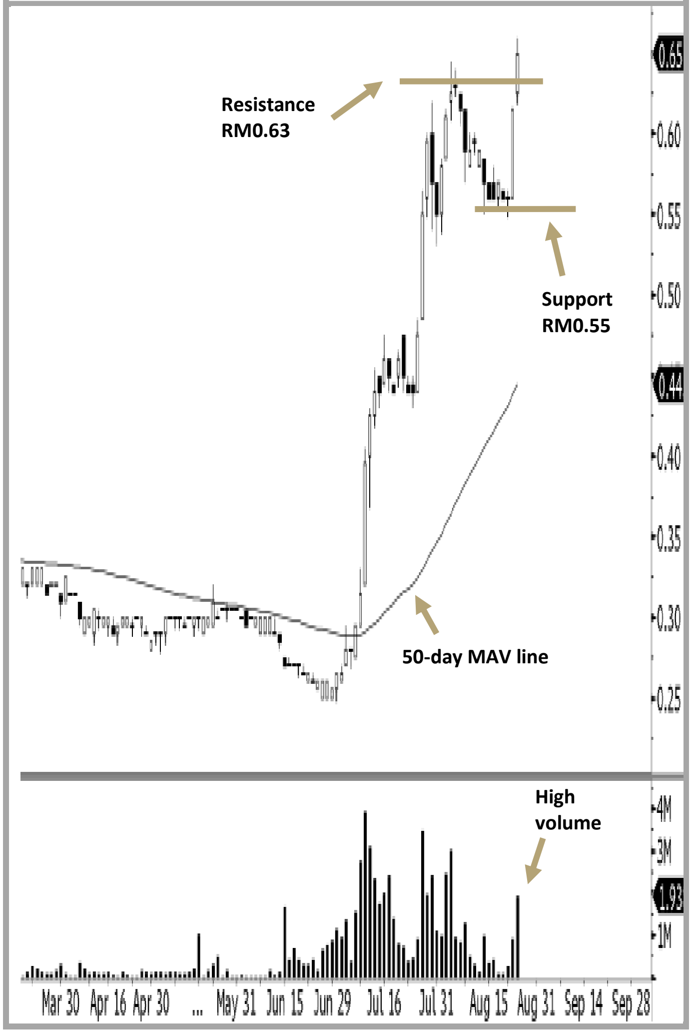
QL may rally after closing above its highest in almost six months. A position can be initiated on a close above RM3.30, with a close below the recent low of RM3.13 as a stop-loss. The price target is RM3.90, provided that the 2011's high of RM3.50 is violated. Failure to stay above RM3.30 should see it sideways and strong support is at RM3.00.

Kian Joo Factory Bhd



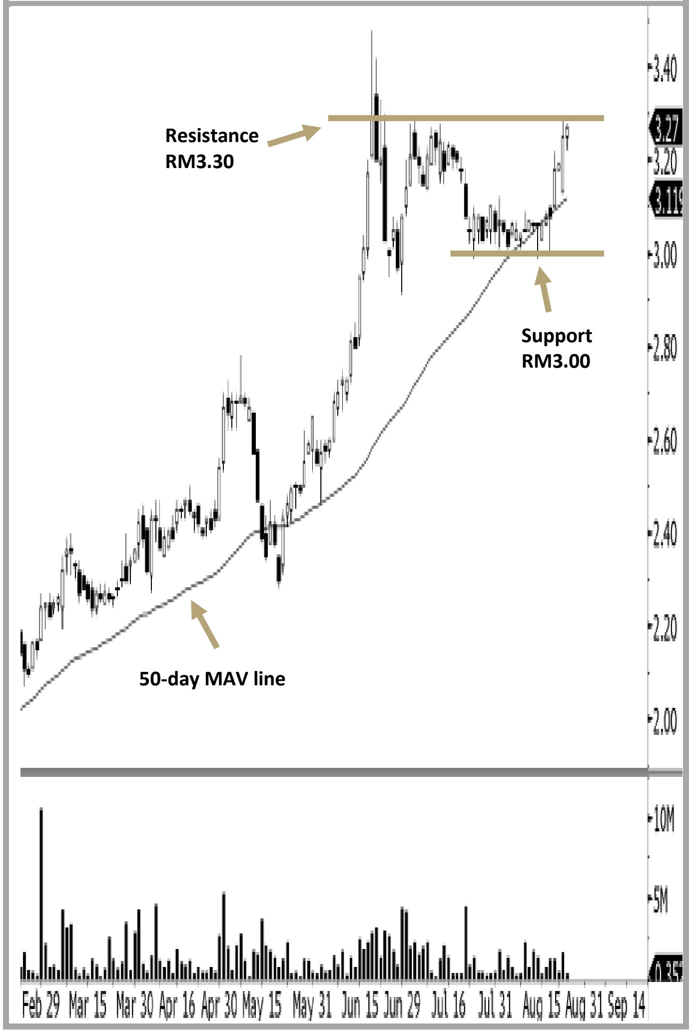
Kian Joo should rally further after printing a 52-week high yesterday. A purchase can be made above RM2.65, or better above RM2.70, with a close below the recent low of RM2.50 as a stop-loss. The price target is RM3.15, with selling also expected at RM2.90. The stock will likely trade sideways if the stop-loss is triggered. Further support is at RM2.40.

Borneo Aqua Harvest Bhd



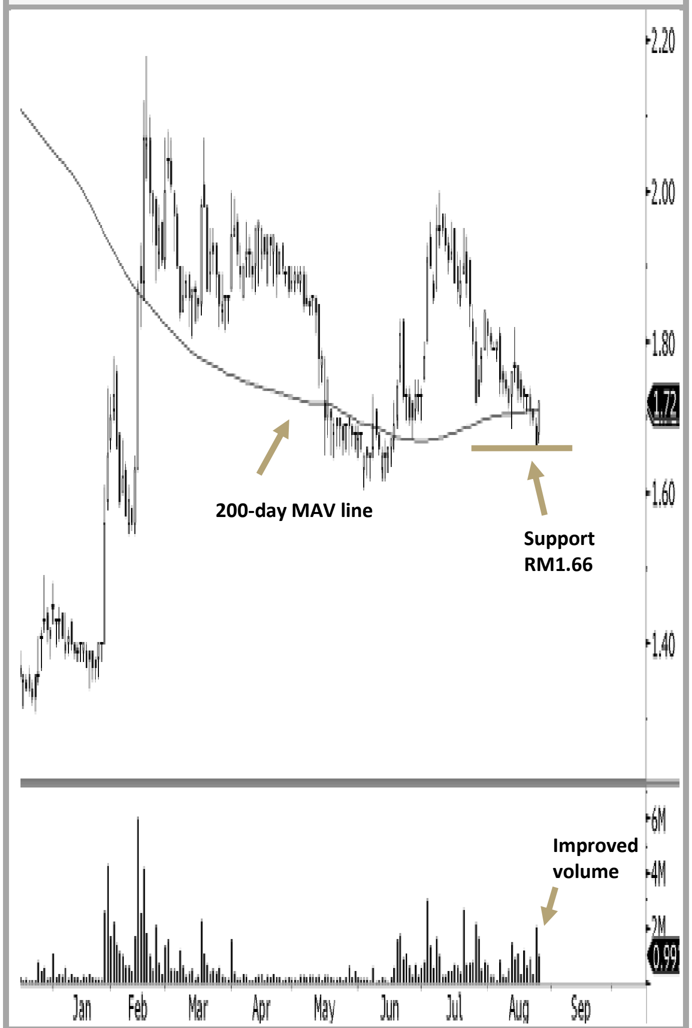
BAHvest may rally further after printing another 52-week high yesterday. A purchase can be made above RM0.63, or better above RM0.65, with a close below RM0.60 as a stop-loss. The price targets are RM0.70 and RM0.75. The stock may decline if the stop-loss is triggered and strong support is expected at RM0.55.

BIMB Holdings Bhd



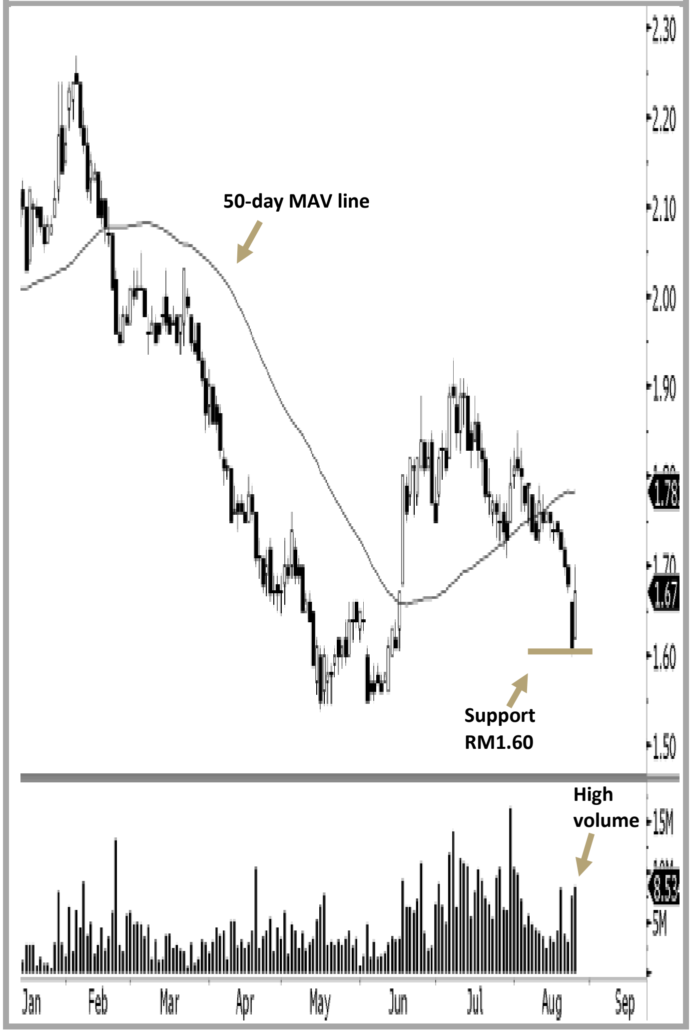
BIMB's rebound should continue if it can close above the RM3.30 resistance level. A purchase can be made above the level, with a close below RM3.00 as a stop-loss. The price target is RM3.90, provided that the intraday high of RM3.50 is violated. The stock may trade sideways if it fails to hold above RM3.30 and further support is at RM2.80.

Cypark Resources Bhd



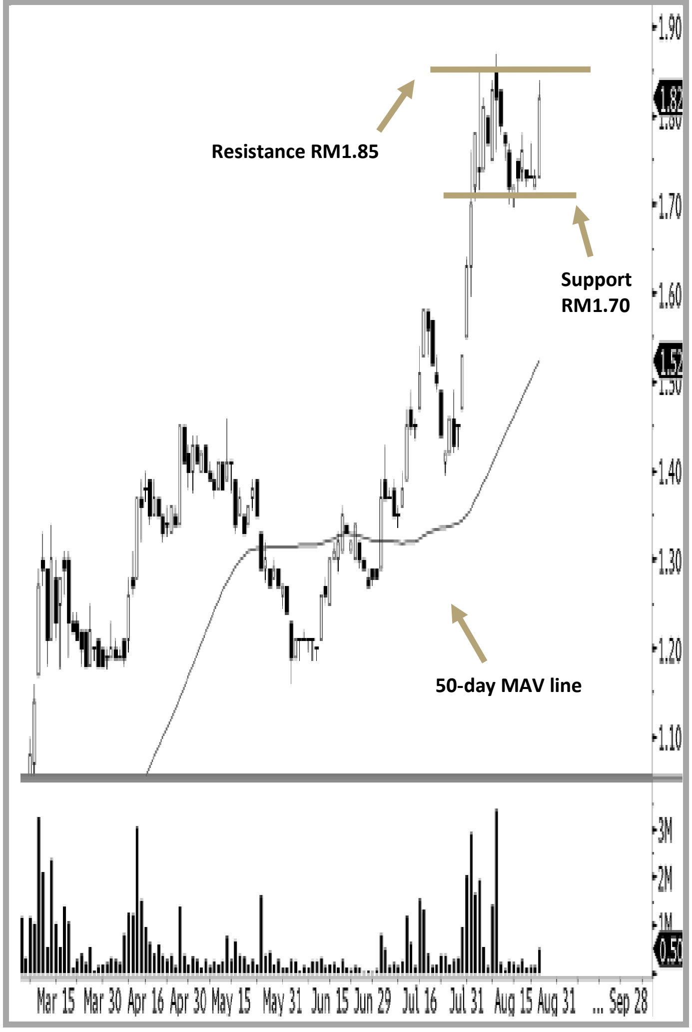
Cypark could rebound after a firmer close yesterday. A position can be initiated on a close above yesterday's high of RM1.72, with a close below last week's low of RM1.66 as a stop-loss. The price target is RM1.80. Failure to break higher should see the stock trend lower. Further supports are at RM1.55 and RM1.50.

Malaysian Resources Corp Bhd

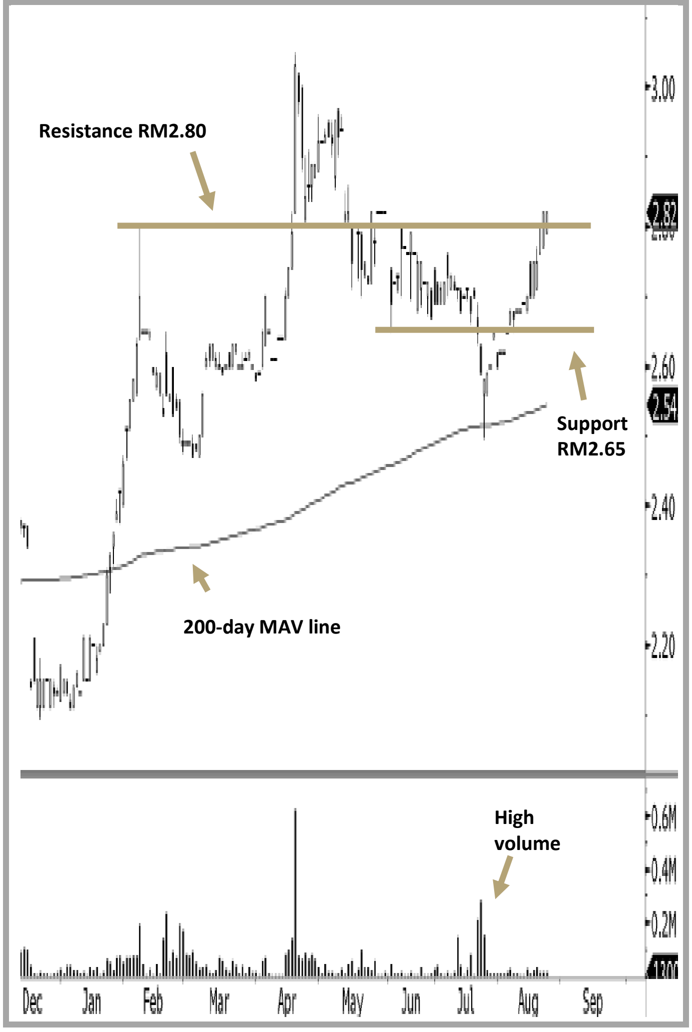


MRCB may rebound after a firm close yesterday. A position can be initated on another close above RM1.66, with a close below last week's low of RM1.60 as a stop-loss. Price targets are at prior highs of RM1.85 and RM2.00. Failure to stay above RM1.66 could see it lower with the next support at RM1.55.

Johore Tin Bhd



Pintaras Jaya Bhd



JohoTin may rally further if it closes above the RM1.85 resistance level. A purchase can be made if it happens, with a close below the recent low of RM1.70 as a stop-loss. The price target is RM2.20, with selling also anticipated at RM2.00. Look for the stock to trade lower should the stop-loss be trigged and further support is at RM1.55.

Ptaras may rise further after closing at its highest in more than three months. A position can be initiated above RM2.80, with a close below RM2.65 as a stop-loss. The price target is RM3.50, provided that the 2012's high of RM3.03 is violated. Failure to stay higher could see it moving sideways with further support at RM2.50.
