

Bogie Enterprises

NOTICE: Bogie-NN-v8b Additional Currency Pairs Set Files.

I suggest running these sets on Demo to become confident on results before going on Live account.

Set File Installation Methods

Method 1:

- 1) Decompress zip file.
- 2) Use Windows Browser and install files here: C:\Programs Files\MetaTrader 4\experts\presets
MetaTrader 4 is your Broker's Metatrader 4 folder. Example: For IBFX, C:\Program Files\InterbankFX Trader 4
- 3) Then Right-click on chart, then click Expert Advisor, then click Properties, then click inputs tab.
- 4) Then click "Load" button and select appropriate set file in the presets folder and then click OK.
- 5) The click Properties OK.

Method 2:

- 1) Decompress zip file.
- 2) Open a Set File with Text Editor (Notepad)
- 3) Right-click on chart for same pair as Set File, then click Expert Advisor, then click Properties, then click inputs tab.
- 4) Manually change inputs value of EA to values in Set File.
- 5) Then click Properties OK.
