

This Forex Tools works on unlimited live and demo accounts.

However, you need a Forex VPS from DigitalForex.com in order to use this tool:

<https://digitalforex.com/clients/aff.php?aff=2>

I recommend you a bronze plan as there are enough ressources to run 3 metatrader terminals.

You can select any VPS location they offer.

Important: Please use Windows Server 2008 or Windows Server 2012 as operating system.

You cannot use the EA on other VPS or on your home PC.

Good luck and many green pips!

If you enjoy this tool, you can find many other trading robots and indicators for free download on our website <https://BestForexTools.net>. They will all work with your Forex VPS.
