It has been prepared without taking into account your personal investment objectives, financial situation or particular needs. You should not act on a recommendation or statement of opinion without first considering the appropriateness of the general advice to your personal circumstances or consulting your investment advisor to determine whether it is appropriate for your investment objectives, financial situation or needs. Trading in derivatives carries high risk and you may incur high losses in excess of your initial investments.

“ COMPANY PROFILE ”

At USGFX, we are committed to building long-term relationships with our clients. We operate on trust, transparency and respect, and it is with these values & principles that we envision becoming the most trusted and respected forex broker in the world.

USGFX is a premium Australian forex and CFD broker, enabling clients worldwide to trade currency pairs, indices and commodities quickly online.

As well as providing our clients with direct access to the global foreign exchange market, we also provide the market news, analysis, and trading set ups so our clients can make their trading decisions conveniently and with technical analysis of the highest quality.

Headquartered in Sydney, USGFX is regulated by the Australian Securities and Investment Commission (ASIC) and we hold an Australian Financial Services Licence (AFSL).

We have technologically advanced servers located in London, New York and Hong Kong to ensure ultra-fast speeds of execution for the benefit and advantage of our clients. This also means we are able to maintain very low slippage, low latency and of course low requotes for our traders.

As a forex broker, we are great believers in striking the right balance between cutting-edge technological sophistication and old fashioned customer service. That is why we complement our split-second ultra-fast execution of orders with the personal dedication of an account manager for all of our clients.

+ OUR PRODUCTS

FOREX

Foreign Exchange is the world's most active and liquid financial product with its daily trade volume exceeding \$5 trillion. The forex market is known to be the largest and most desirable financial market for its 24 hours availability 5 days a week.

USGFX offers competitive trading condition, with leverage up to 1:500, and competitive spreads, low requotes/slippage as well as customized services dedicated for different types of traders.

METALS

Precious Metals margin trading is a great weapon against inflation. It is an asset where there is no expiry date until you choose to close it.

USGFX provides the competitive spreads in precious metals. It is made available for the traders with fast executions of orders. To enhance your experience, we also provide competitive margins with zero commissions.

CFD

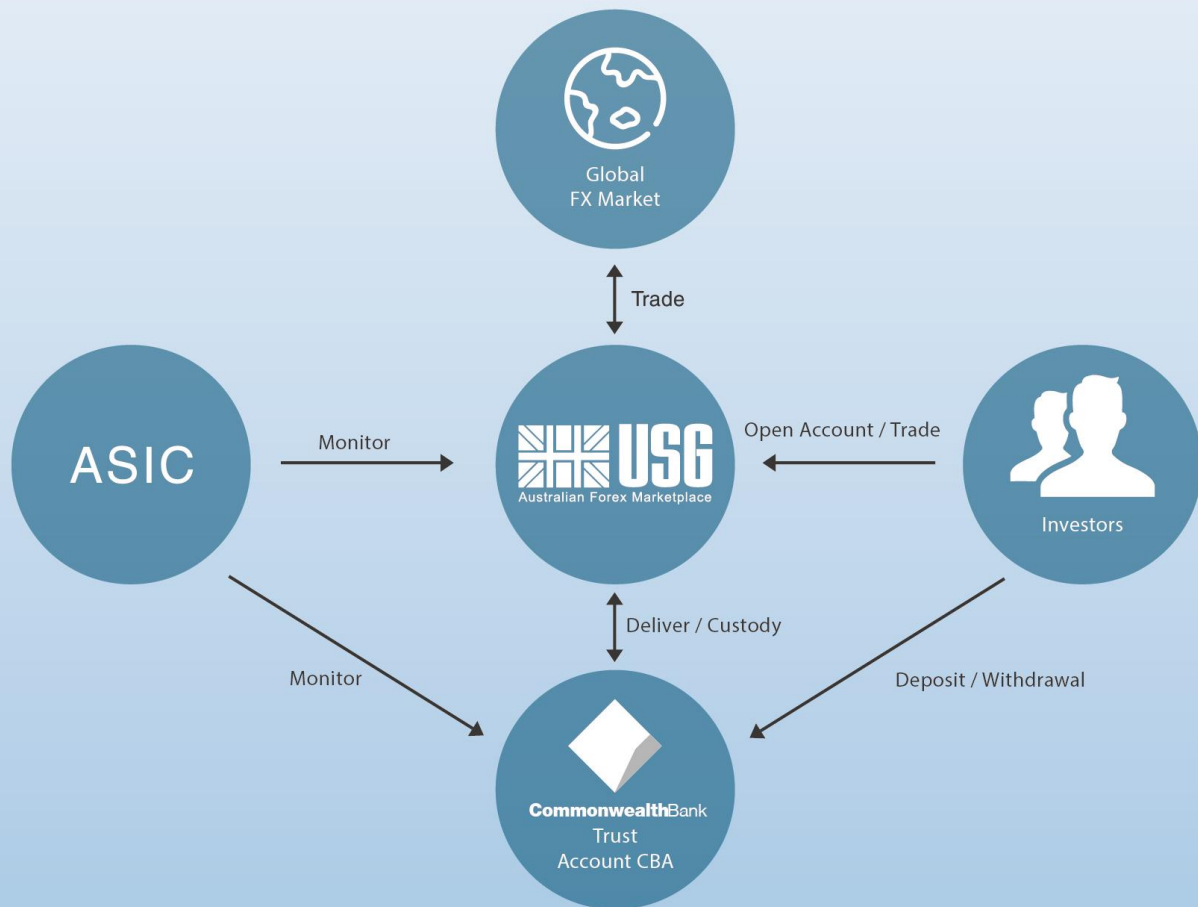

A Contract For Difference mirrors the movements of the underlying assets in the future, it allows profits to be realized where one will never own the asset. Trading CFD has gained popularity due to many advantages.

USGFX delivers to you a wide range of contracts from energy to indexes, allowing you to trade it all!

We offer extensive investment products with a diverse portfolio, meeting with exceptional executions and high leverage to meet all your needs in CFD trading.

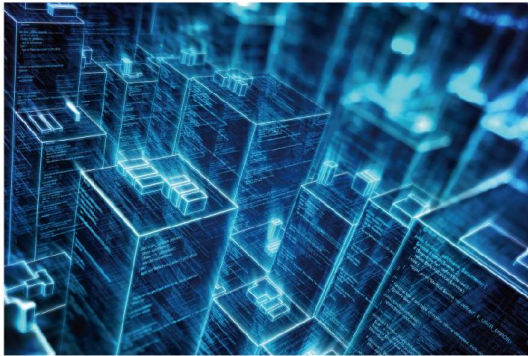

PROCEDURES OF FUNDS

Professional Indemnity Insurance

PI insurance is a way of reinforcing a licensee's ability to meet any consumer losses caused by negligence or a breach of duty by the licensee or its representatives by making funds available to the licensee under the terms of the insurance policy. Advice businesses must have adequate PI insurance to protect itself from certain risks. ASIC will follow up with surveillance of advice licensees' PI insurance and if any problem is found, enforcement action will be taken.

FUNDS MANAGEMENT

SEGREGATED FUNDS

Commonwealth Bank of Australia is the custodian bank of USGFX, providing professional management of clients' funds.

Along with providing you an executive multilayer security system, it enables you to trade with peace of mind and also allows all personal information to be kept safe, secure and private. On top of all, clients' funds are segregated from company funds, both are held, maintained and recorded according to strict statutory provisions.

PREMIUM TRADING CONDITIONS

To deliver competitive trading conditions to clients, USGFX has established its own Data Centres. Our Data Centres help provide connectivity of a premium grade, which is fast, stable and reliable and in turn provides traders with an exceptional trading environment.
